

# METDRAW 528

## Ultra Light-Duty

### Vanishing Lubricant

#### Product Line

Metalloid Corporation manufactures a complete line of high-quality vanishing fluids for a wide range of applications. Metalloid stamping compounds provide industry with a variety of unique products that meet the demands of most forming and stamping operations.

#### Description

**METDRAW 528** is a low viscosity vanishing lubricant, containing a proprietary blend of lubricity additives. This fluid is non-staining. **METDRAW 528** is formulated for light duty blanking, stamping and forming of ferrous and non-ferrous metals, including pre-coated stock. This product evaporates leaving minimal residue. In most instances, additional cleaning is not necessary. **METDRAW 528** contains no sulfur or chlorine.

#### Benefits

- Dry to touch
- Clean running
- Multi-metal safe
- Good tool life
- Ideal for multi-slide machines

#### Application

**METDRAW 528** is designed to be used as is.

**METDRAW 528** is available in 5-gal. Pails, 55-gal. Drums, 330-gal. Totes, and bulk gallon quantities.

#### Specifications

Appearance.....clear, colorless liquid  
Specific Gravity.....0.760  
Density, lbs. /gal. @ 70F.....6.33  
Flash Point, F (TCC).....140+

Metalloid Compounds  
Program Listed H1  
Registration Number 164096
