Introduction

Tapeze X-2 is a fortified paste for tapping all metals. What sets Tapeze x-2 apart from our competitors is that it is a paste which makes it easier to get it directly to the desired location. Tapeze X-2 has many different benefits including eliminating chipping and galling, reduces tool breakage, and is safe on all types of metals. Our Tapeze X-2 works wonderfully in CNC machines due to the effectiveness of not mixing with the coolants. This reduces the separation of the tapping fluid and the coolants.

Key Finding #1

Tapeze X-2 reduces tool breakage. Customers who are using tapeze x-2 compared to our competitors' products are seeing longer tool life.

Key Finding #2

Compared to our competitors, including tap magic and molly dee, our price is significantly lower. Metalloid has outperformed our tapping fluid competition by combining the many benefits and our lower price.

Key Finding #3

Customers love the fact that our Tapeze x-2 can be used in many different types of applications and that it is safe on all types of alloy metals. Tapeze x-2 can be used for threading, reaming, extruding, hand tapping, blind hole tapping, cutting, drilling, CNC tapping, and heavy duty forming. It is unlikely that you can get a tapping fluid that can be used in this many different types of applications but here at Metalloid we made it happen!

Key Finding #4

One of the many benefits of tapeze x-2 is that it is a paste and not a liquid form like many other tapping fluids. This eliminates the mess and keeps your workspace clean. It will not drip or run all over when you are tapping. This sticks right where you need it!

Conclusion

Many customers are blown away by Tapeze x-2. The main benefits that customers enjoy are the price, that it is a paste which eliminates mess, increases tool life, safe on all metals, improves the finishing of parts, improves thread quality and many more. Tapeze x-2 comes in a variety of sizes including squeeze tubes, gallon, 5 gallons, and 55-gallon drum. No one understands metal working fluids better than Metalloid, so no one else can bring you advanced technology that works on the issues that matter to you. We are professionals, let us provide you with great products and services!
