

SWISSCUT 8372

Product Description

SWISSCUT 8372 is clear amber high performance light viscosity cutting fluid designed for CNC Swiss Style machining. **SWISSCUT 8372** utilizes the latest technology for difficult machining applications. **SWISSCUT 8372** is recommended for use on Stainless Steel, Hardened Steel, Titanium, Platinum, and Aircraft Aluminum. **SWISSCUT 8372** provides exceptional tool life by withstanding and reducing friction at the cutting edge – increasing feeds and speeds and providing long term, trouble free performance.

Benefits

- Stable at high temperatures.
- Low foaming in high-pressure systems.
- Excellent finishes on both ferrous and non-ferrous metals.
- Pleasant odor.
- Environmentally friendly - non-toxic, non-corrosive, low misting product.
- Non-dye clear, amber fluid.

Applications

- Final rinse protection in cleaner lines
- Additive to enhance vibratory cleaning/protection
- In-transit part protection
- Dip coating machined parts
- In process protection prior to painting, plating or finishing

Directions For Use

SWISSCUT 8372 is an ideal choice for the Medical, Electronic and Aerospace industries where high performance is the standard.

SWISSCUT 8372 is an excellent choice for Turning, Milling, Broaching, Drilling, Tapping and Threading.

Packaging

SWISSCUT 8372 is used as is and is available in 5-gallon Pails, 55-gallon Drums, and 275-330 gallon Totes.

Cleaning

All **SWISSCUT** series oils are formulated for easy cleaning in both Aqueous and Solvent cleaning systems.

PROPERTIES	
Specific Gravity @ 70° F	0.882
Density, lbs/gal	6.84
Appearance	Non-dye clear, amber liquid
