

# METCOR 60 Synthetic Corrosion Preventative

## PRODUCT DESCRIPTION

**METCOR 60** is an **oil-free**, water-based corrosion preventative for in-process rust protection on steels and cast irons. **METCOR 60** deposits a dry, mono-molecular film on metal surfaces. This protective film is clear and provides excellent short-term, indoor corrosion resistance.

## BENEFITS:

- Economical-Water Dilutable
- Non-hazardous (no oil or solvent)
- Safe (non-flammable)
- Clear Film (easy part inspection)
- Long Tank Life
- Prevents "White Rust" On Aluminum
- Environmentally & Operator Friendly
- No Flash Point
- Easy To Remove Or Clean Off
- Biodegradable/Non-Toxic
- Can be painted over with some paints

## APPLICATIONS:

- Final rinse stage in cleaner lines
- Rust protection after machining
- Protect parts during transit
- Anywhere short-term rust protection is required
- In-process rust protection of parts
- Dip tank coating
- Sealer prior to painting or coating

## DIRECTIONS FOR USE:

**METCOR 60** can be diluted to any concentration. For general-purpose work we recommend a mixing ratio between 1:10 to 1:5, depending on desired film or protection required. Spot testing may be helpful as a guide for increasing or decreasing mix strength.

## Note:

Always let part dry **before** packing or storing. Using warm water will decrease drying time substantially.

## The Metalloid Partnership Advantage

## PACKAGING

**METCOR 60** is available in 5 gallon pails, 55 gallon drums, 330 gallon totes and bulk

Properties	
Appearance	Colorless, clear liquid
Odor	Bland
Water Solubility	Complete at all proportions
Protection	Short term indoor
Film	Dry
